

Committee Report
SNMITS Executive Board
January 21, 2011
Program Committee

Committee Charges for 2010-2011:

Organize the SNMITS scientific and teaching program at the Mid-Winter and Annual Meetings of the Society

Current Working Objectives/Goals

- Goal A: SNMITS will be the indispensable resource in promoting, and educating in knowledge exchange, Training, and networking for nuclear medicine, molecular imaging and therapy
- Goal C: SNMITS will be a leader in educational and credentialing/licensing efforts for imaging specialists in nuclear medicine, molecular imaging and therapy

Progress of Charge/Objectives/Goals to Date:

The committee members worked hard to provide our membership with a wide variety of continuing education opportunities.

This year we are offering the following Categoricals and CE sessions:

3 Categoricals on Saturday, June 4, 2011

- Cardiology
- PET/CT
- General Nuclear Medicine
- Advancing Molecular Imaging

11 CE Session Tracks on Saturday, June 4 – Tuesday June 7, 2010

- Neurology
- Nuclear Medicine Advanced Associates
- Cardiovascular
- Pediatrics
- Coding & Reimbursement
- PET/CT
- General Nuclear Medicine
- Radiopharmacy & Radiation Safety
- Leadership
- Therapy/Oncology
- Advocacy

This year, we are again starting the technologist CE sessions on Saturday, June 4 after the completion of the Categoricals. This addition to the SNMITS Program was very successful last year.

Additional Goals/Objectives Added for 2010-2011

None at this time.
